

Greetings

MobilityTalks International

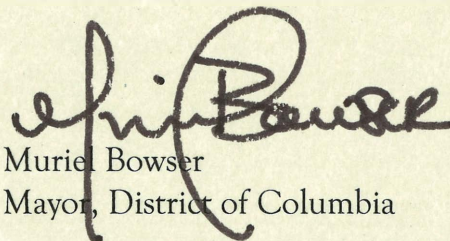

As Mayor of the District of Columbia, it is my pleasure to extend greetings to the participants of MobilityTalks International.

MobilityTalks International is a forum designed for governments from around the world, to exchange ideas on best practices related to emerging trends in transportation.

The Washington Auto Show presents MobilityTalks International for the first time, as part of its mission to anticipate this rapidly changing sector. Automated technologies will soon revolutionize the driving experience, connecting drivers with city infrastructure for smarter and safer transportation. The changing landscape of transportation also presents a unique challenge and opportunity that can be more effectively addressed through partnership and collaboration.

Through this forum, lawmakers, automakers and corporate leaders can address the complexities and challenges that the future will bring in the automotive industry.

On behalf of the residents of the District of Columbia, I wish you an enjoyable and successful event.

Muriel Bowser
Mayor, District of Columbia
